I believe they will be supporting CI with messages related to health and will be included in our field team. Would still be good to clarify.

I have a few other priorities I'm bringing up on the 8:30 call. Yolanda, would you bring this up so that we don't forget to discuss it?

Glad the CI SITREP was helpful. I usually do it around this time each morning.

Thanks,  
Amanda

It would be good to clarify what structure ATSDR will be working under. Amanda, will they be an extension of the CI team? If so, should we re-think the staff needs of the current 2-person field CI team?

Amanda I received the SITREP and found it very useful. Please keep me cc'ed. No need to go backwards, though.

Jamie Rayman has been texting me to let me know that she is coming today. I believe she is the person being deployed to meet this need.

Also Yolanda, I copied you on my daily sitrep to Kathleen for today. Let me know if you'd like me to keep copying you on that and if you would like the one from yesterday,

Best,  
Amanda

Sophia will not deploy. She said that ATSDR will be responding. If anyone has information on who and when, that would be helpful. Maybe it will come up this morning.

Totally agree. I thought of her on the phone call today. Keep us in the loop!

I was mistaken on the phone. Sophia Serda has been contacted to respond as a risk communicator. I have spoken to her about the needs. Her and Peter G will make a decision on whether she will respond. She would be the absolute best person in this situation!
